

CFM Purchase

Your OPEX under control.
Always, anywhere.

Keep track of your orders and constantly monitor your costs with real-time budgeting

CFM Purchase provides you with all sections of the purchasing process at one point in an intelligently structured manner, gives you full control over your budgets and allows your suppliers to work directly with this information. Using the inquiry-webform suppliers can easily answer your requests and pass it on to CFM Purchase.

The module will arrange all relevant data clearly to compare offers and their follow ups as easy as possible. Open interfaces allow suppliers to connect their own applications directly with CFM Purchase to structure communications even more efficiently. Your efforts for communication and offer-comparison will

be enormously reduced, so your employees can focus on the essentials. Real-time-budgeting informs you directly about your remaining budget simultaneously while ordering. A variety of reports provide important information about the stock and the status of delivery as well as warehousing. Your fleet will be integrated seamlessly due to the on-board application Cloud Ship Manager (CSM).

With CFM Purchase, you organise your purchasing cycle completely and portable in just one application. Experience the interconnection of suppliers, office, fleet and benefit from real-time data for dynamic budget planning and permanent control over your OPEX.

Transparent

Intuitive and clear access to the whole ordering process.

Interconnected

Directly integrate suppliers and let them answer to inquiries using web-forms.

Time- and cost-saving

Centralised documentation and reduction of communication effort.

Mobile

With CFM Purchase Mobile you can check data and grant approvals on the go.

Key features

- + All aspects of the purchasing process in one application
- + Processing of inquiries, quotations and initiated orders
- + Real-time budgeting
- + Mobile app for insights and approvals on the go
- + Access to all information with PC or Tablet
- + Integrated warehousing
- + Integrated reports (e.g. OPEX, supplier, order overview)
- + Tracking of delivered orders
- + Direct integration of suppliers via web-form / open interface

Inquiry-Webform

Suppliers can easily answer your requests with the inquiry-webform. CFM Purchase will arrange all relevant data clearly to compare offers and their follow ups as easy as possible.

Open interfaces allow suppliers to connect their own applications to organise communications even more efficiently.

CFM Purchase Mobile

CFM Purchase Mobile gives you the ability to quickly access the most relevant information, check budgets and grant approvals for requisitions and orders on the go, using your smartphone. Simplify your processes and stay in control.

About Hanseaticsoft

Hanseaticsoft was founded in 2009 by Alexander Buchmann. Buchmann and his team draw on several years of experience in the software department of a medium-sized shipping company in Hamburg, the third largest container harbour in Europe. In Hanseaticsoft, the idea of a new software concept was finally realised: giving enterprises access to new and efficient

technologies by means of intuitive software solutions. Today Hanseaticsoft has more than 60 employees. It is now part of Lloyd's Register Group, one of the world's leading providers of professional services for engineering and technology – improving safety and increasing the performance of critical infrastructure for clients in over 75 countries worldwide.
